 [#EbolaRDC](#) | Situation Report as of May 30, 2026

The Government of the Democratic Republic of the Congo, together with its national and international partners, continues its response efforts against the Ebola virus disease outbreak in the provinces of Ituri, North Kivu, and South Kivu.

 Epidemiological Situation as of May 30, 2026

- 282 cumulative confirmed cases
- 42 deaths among confirmed cases
- 2 recoveries recorded to date
- 220 suspected cases under investigation
- 101 suspected cases in isolation
- 238 confirmed patients under treatment
- 19 new confirmed cases during the day
- Contact follow-up rate: 45.2%

 Distribution of Confirmed Cases

- Ituri: 264 cases
- North Kivu: 15 cases
- South Kivu: 3 cases

 Laboratory

- 52 new samples collected and analyzed
- 19 new positive samples
- Daily positivity rate: 36.5%

 Case Management

- 142 patients currently in isolation in treatment centers.
- 7 deaths recorded in health facilities during the day.
- 5 escape cases reported.

 Key Response Highlights

- No new provinces affected during the day.
- Over 13,900 travelers registered at entry and control points.
- 149 health alerts reported, of which 84 investigated and 73 validated.
- Official handover of 1,800 motorcycles by the Central Government to strengthen response activities in Ituri.

 In case of symptoms or suspicion, call the toll-free number 151.
