 [#EbolaRDC](#) | Situation as of May 31, 2026

 The epidemic continues its progression, now affecting 23 health zones in the provinces of Ituri, North Kivu, and South Kivu. The Logo health zone (Ituri) is newly affected.

 Key indicators

- 321 cumulative confirmed cases
- 48 deaths among confirmed cases
- 6 recoveries recorded
- 116 suspected cases under investigation
- 104 suspected cases in isolation
- 238 patients under treatment
- 12 new confirmed cases reported on May 31
- 43% contact follow-up

 Response progress

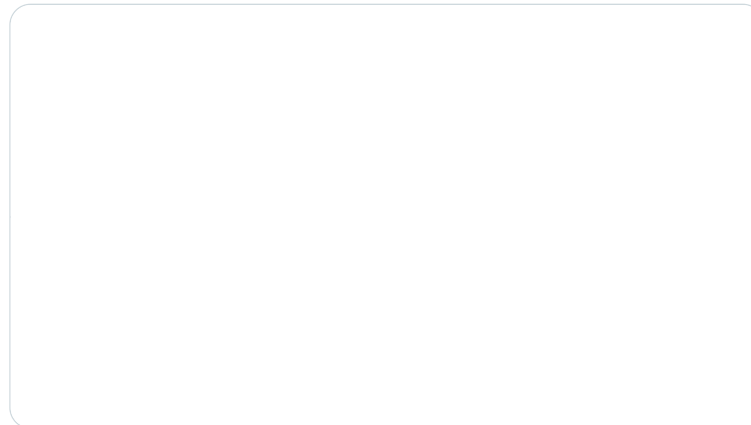

- 4 recovered patients have been discharged from the Evangelical Medical Center of Bunia.
- Inauguration of the Rwampara Ebola Treatment Center.
- Capacity strengthening with the receipt of 162 blood bags and 30 motorcycles for field teams.

 Points of vigilance

- The epidemic remains active and continues to spread.
- Community resistance persists in Bunia and Nizi.
- Rumors and disinformation are complicating response efforts.
- Contact follow-up and community adherence remain essential to curb the spread of the virus.

 In case of symptoms or suspicion: 151 (free call).
