MVE-17 Incident Management System

Situation Report of the 17th Ebola Virus Disease Outbreak / DRC

SitRep N°013/MVB_27/2026

Provinces affected (3)	ITURI, NORTH KIVU & SOUTH KIVU
Affected Health Zones (13)	ITURI : Aru, Bunia, Kilo, Mongbwalu, Nizi, Nyankunde and Rwampara NORTH KIVU : Butembo, Goma, Oicha, Kalunguta and Katwa SOUTH KIVU : Miti-Murhesa
Reporting date	May 27, 2026
Publication date	May 28, 2026

* The number of suspected cases has been revised downwards following the removal of non-cases and confirmed cases.

0. HIGHLIGHTS

- First recovered case (F, 32-year-old PPL admitted on May 18th to CH Salama for fever, headaches and aches and pains. Transferred to HGR Rwampara on May 20, 2026;
- A first patient cured of EVD has been registered at the Ebola Treatment Centre (ETC) in the Rwampara health zone.
- Received today a GeneXpert/Radione machine with 4 modules and 2,000 cartridges intended for diagnostic purposes.
- Escape of a confirmed case being treated at CH Salama.

I. CONTEXT

The Ituri Province is located in the Northeast of the Democratic Republic of Congo and

It shares a long border with Uganda and South Sudan. For more than two decades, it has faced a chronic humanitarian crisis linked to armed conflict and recurring population displacements. It has an estimated population of over 8 million, including more than one million internally displaced persons.

In September 2018, this province was affected by an Ebola virus disease epidemic that was raging in the neighbouring province of North Kivu.

The Mongbwalu health zone is one of the 36 health zones in the Ituri province.

Considered the starting point of the epidemic, it is located in the Djugu territory, where several armed groups operate. It is situated 70 km from Bunia, the capital of Ituri province, with frequent population movements towards Uganda. This locality is characterized by several construction sites that attract people from other territories within the province and from neighboring provinces.

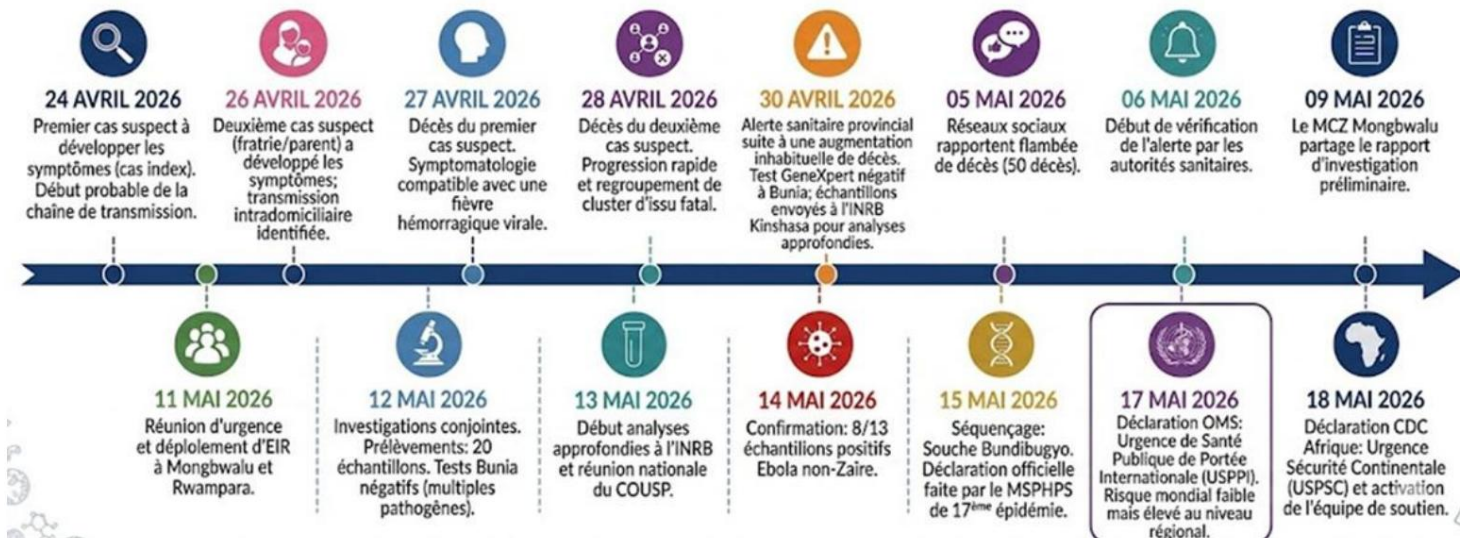

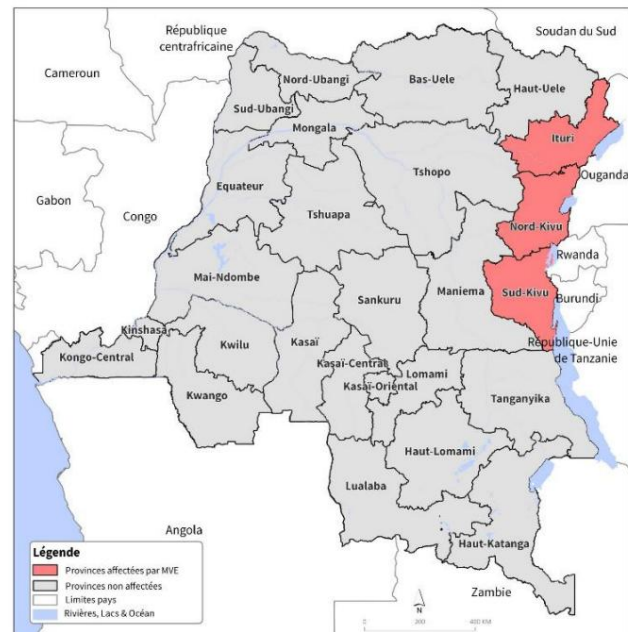

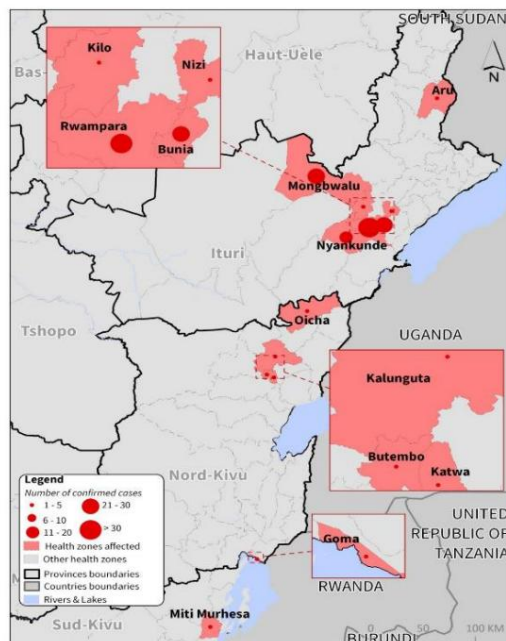

Figure 1. Chronology of events of the Ebola-Bundibugyo virus disease epidemic.

Figures 2 & 3. Spatial distribution of confirmed Ebola cases by affected health zone and in the three affected provinces as of May 27, 2026.

II. EPIDEMIOLOGICAL SITUATION UPDATE

- No new confirmed cases were reported for May 27, 2026.
- Three provinces are currently affected: Ituri, North Kivu, and South Kivu.
- Cumulative confirmed cases as of May 27, 2026: 125 cases, including 110 in Ituri, 14 in North Kivu, and 1 in South Kivu.
- ITURI: epicenter with 7/36 health zones affected (Aru, Bunia, Kilo, Rwampara, Mongbwalu, Nizi, and Nyankunde)
- NORTH KIVU: 5/35 health zones affected (Goma, Butembo, Oicha, Kalunguta, and Katwa)
- SOUTH KIVU: 1/34 health zone affected (Miti-Murhesa)

III. RESPONSE ACTIONS NSE

IV.1. COORDINATION

- Holding a strategic meeting at the Prime Minister's office aimed at mobilizing financial resources and logistics for the response.
- Organization of bilateral meetings by the strategic coordination team dedicated to mobilizing resources with key partners.
- Holding of the first meeting of the planning pillar at COUSP.

IV.2. EPIDEMIOLOGICAL SURVEILLANCE

- Implementation of field surveillance activities: reporting and validation of alerts, investigation of cases, active case finding, listing and monitoring of contacts, as well as retrospective documentary review of cases and deaths.
- Training of IPC stakeholders on Ebola virus disease (EVD) generalities and surveillance activities, including case mapping.
- For the day of May 27, 2026, 118 alerts were reported, 98 (83.0%) were investigated and 51 (52.0%) were validated, of which 35 (68.6%) were collected (partial data).

Table II. Distribution of suspected and confirmed cases, deaths of Ebola virus disease in the health zones of the Ituri, North Kivu and South Kivu DPS as of May 27, 2026

Provinces	Health zones	Number of suspected cases*	Number of suspicious deaths*	Number of cases Confirmed*	Number of contacts*
Ituri	Aru	4			0
	Bamboo	6	12	10	244
	Bunia	249	48	37	404
	Kilo		2	1	41
	Mongbwalu		88	20	222
	Nizi	8,339,6	2	2	220
	Nyankunde	45	11	10	397
	Rwampara	228	69	33	697
	Samples without a datasheet	0	0	6	0
Subtotal		885	223	110	2225
North Kivu	Butembo	7	0	5	28
	Goma	0	0	1	74
	Kalunguta	13	0	2	ND
	Karisimbi				181
	Katwa	0	0	4	111
	Kyondo	0	0	0	16
	Oicha	0	0	2	ND
Subtotal		20	0	14	410
South Kivu	Miti Murhesa	1	0	1	ND
Subtotal		1	0	1	0
Total		906	223	125	2635**

*This data is subject to change following harmonization of data at different levels of the healthcare pyramid with the system of incident management. **Contact tracing remains suboptimal.

Point of Entry and Point of Control (PoE/PoC) Surveillance:

- Donation of 4 3,000-litre tanks, including 2 at the Dele PoC and 2 at Mudzibala, by partner Samaritan's Purse.
- Identification of 5 PoCs in the Mongbwalu SZ: Poipo, Pluto, Njebi, Pont-Frigo and Kilo in order to make them operational.

Table III. Summary of PoE/PoC data as of 27/05/2026

Indicators at PoE/PoC	TOTAL
Travelers who have used the PoE/PoC	14,662
Screened travelers	14,530
Travelers who have washed their hands	14,314
Travelers made aware of Ebola virus disease	14,530
Listed contacts	0
Alerts raised	0

IV.3. LABORATORY

- Receipt of 2,016 RADIONE tests, extraction kits, personal protective equipment and other inputs with support from WHO.
- Arrangement for the cold chain of radione reagents at the Bunia laboratory.
- A confirmed patient had a negative test (re-samples) on May 27, 2026. He was declared cured and discharged from the CTE on the same day.
- In addition, of the 203 samples sent to Kinshasa, 95 were analyzed and 24 came back positive (distribution by health zone in progress).

Reception of laboratory supplies from Bunia, Ituri province.

Table IV. Update on the laboratory situation as of 27/05/2026

Key indicators	27/05/2026	Total
Samples received	73*	774
Re-sampling (control)	8 (4 negative)	8
Number of samples analyzed		648
Positivity rate		19.2%
Number of positive cases	3 0 0	125

**This data is only for the Bunia laboratory.*

IV.4. INFECTION PREVENTION & CONTROL

- Continued training of trainers and support partners on the complete PCI package (J2).

1. ZS Bunia

- Allocation and receipt of 45kg of chlorine to the PCI pillar.
- Decontamination of 2 households in Solenyama
- 3 EDS carried out on 3 alert cases (1 HGR-Bunia and 2 CS Aero).

2. ZS Rwamapara

- Briefing of 2 healthcare providers on bed spacing (Maternity) (CS Rwamapara).

3. ZS Nyakunde

- 2 EDS carried out on 2 alert cases and 2 decontaminations in the community.

4. ZS Aru

- 1 EDS carried out on 1 alert case.
- Disinfection of the Bakitha room.

5. ZS Mongwalu

- 7 EDS carried out on 9 alert cases (1 HGR-Mongwalu, 1 AS Lodjo, 4 AS Mongbwalu, 2 AS Ceca 20).

Decontamination of the Lembabo Hospital
Bunia, Ituri province.

IV.5. HOLISTIC CARE

- Briefing of service providers on nutritional status assessment.
 - Handing over of MUACs for nutritional activities.
 - On-site visit to monitor the progress of the CTE works.
 - **Psychosocial interventions and mental health:**
 - (i) Announcement: 4 deaths followed by psychological support for families regarding the EDS;
 - (ii) Briefing of clinical psychologists on the announcement of confirmed cases and deaths; •
- Continuity of care:** 2 teams of evaluators were briefed on the evaluation of ESS in the RWAMPARA health zone;

Table V. Patient movement in healthcare facilities as of 27/05/2026

Indicators and Variables		HGR BUNIA	HGR RWAMPARA	CME	HGR MUNGBWALU	HGR NYAKUNDE	CT BAMBU	CT HEAL AFRICA (North Kivu) 19 beds	TOTAL and Occupancy rate
		(12 Beds: 08 S and 03 C)	(18 Beds: 8 C and 10 S)	(27 Beds: 08 Conf and 19 S)	(40 beds: 12 C and 28 S)				
Report		14	8	22	10	39	6	2	101
News	PPL	0	0	0	1	0	0	0	1
Admissions	Others	2	2	5	1	0	3	0	13
Outings	Healed	0	0	0	0	0	0	0	0
	Deceased	1	1	1	2	1	0	0	6
	No Case	0	0	0	0	0	0	0	0
	Escapees	3	0	0	1	0	0	0	4
	Transferred	0	0	0	0	0	0	0	0
Patients Hospitalized	Total	12	9	26	9	38	9	0	103
	New Cases Confirmed	0	1	0	0	0	0	0	1
	Ancients Case Confirmed	1	0	0	0	9	1	1	12
	Suspects	11	8	26	9	29	8	1	92
	Suspect < 5 years	0	0	0	0	0	0	0	0
Bed occupancy rate	Suspects	11/12 (91.6%)	8/10 (80%)	26/27 (96%)	9/28 (32%)	ND	ND	ND	70.1%
	Confirmed	1/3 (33.3%)	1/8 (12%)		0/12 (0%)	ND	ND	ND	8.7%

S: Suspects C: Confirmed

IV.6. CREC

Managing rumors surrounding EDS, decontamination and the decrease in attendance at ESS.

- 21 journalists from local media outlets in Bunia (radio, TV and online media) have pledged to communicate only information
- Commitment of 31 APA (mayor and heads of various departments) from the SHARI Municipality (ZS Bunia) to prevent and manage the infodemic and community resistance. **ZS**

BUNIA: 478 people sensitized at the Bunia central market on preventive measures against Ebola Virus Disease (EVD), including 323 women and 135 men. Deployment of communication materials in strategic locations in Bunia (MURONGO National Airport and Bunia Central Market).

ZS RWAMPARA: Awareness-raising activities for two traditional healers who treated two patients who died in AS Shari and preparation for a field visit with the Surveillance team to further investigate.

Local communication

ZS Bunia and Rwampara:

- 7,323 people reached by awareness messages during the VADs carried out by Red Cross volunteers: 1,024 men, 1,286 women, 2,626 girls, 2,327 boys.

ZS Bunia:

- 3,662 students, including 2,414 girls and 1,248 boys, were made aware of preventive measures in 5 schools of the MVE.

ZS Nizi: Educational talks with 90 RECOS including 30 in AS LINGO, 30 in AS LOPA and 30 in AS LOPA Mission on preventive measures for Ebola virus disease and the referral of patients to the nearest healthcare facilities.

IV.7. LOGISTICS

- Supply of PCI inputs and materials to Category 1 ESSs
- Monitoring the progress of the CTE construction work at the BUNIA General Hospital;
- Monitoring the installation work of 3 tents at CME/BUNIA.
- Tour of the hydraulic and electrical installations at the Provincial Laboratory.

IV.8. SECURITY

- The security situation in the city of Bunia (Bunia and Rwampara health zones) is relatively calm
- Security briefing for newly deployed teams.

- Monitoring of the incident (isolation fire at HGR Mongbwalu).

IV. CHALLENGES

- Reluctance towards post-mortem sampling: Formal refusal by families to have diagnostic tests (swabs) carried out on the bodies of the deceased in morgues.
- Absence of standardized Ebola Transit Centre and Treatment Centre in Ituri.
- Weakness in Contact Follow-up and Lack of Training for Stakeholders
- Persistent gaps in the identification and rigorous monitoring of contact cases at the level of active and high-risk health zones.
- Shortages in isolation facilities: Total absence of essential medications at the Center Ebola treatment (ETC) and at the isolation block in Rwampara and Nyankunde.
- Supply failure of reference hospitals: Lack of supply of Essential Generic Medicines (EGMs) within the four targeted General Reference Hospitals (GRHs), weakening the overall care of patients.
- Lack of PCI equipment (PPE, DLM, chlorine) in North Kivu
- Low reporting of alerts by zones in the 3 affected provinces (Ituri, North Kivu and South Kivu) Kivu);
- Insufficient financial resources to support all pillars of the response in the health zones affected;
- Difficulty in transporting samples to laboratories in Goma and Kinshasa.
- Spread of rumors and proliferation of traditional treatment recipes.
- Lack of communication materials and tools.
- Low diagnostic capacity
- Insecurity in the health intervention zones (Rwampara CT fire, Mongbwalu).

V. PERSPECTIVES

- Training of service providers on the use of PCR RADIONE
- Training of service providers on Ebola virus disease (EVD) and squamous cell carcinoma (SCC) surveillance in affected and high-risk health zones risk of three provinces being affected;
- Training of community health workers on Ebola virus disease and SBC surveillance in affected health zones and high risk in the province of ITURI.

- Finalize the development of the research protocol and the data collection tools for perception communities on Ebola, the response and actors in health zones affected by the Ebola epidemic.

Preparation for implementation at the EDS in the Bunia health zone, Ituri province.

Day 2 of the training of trainers and support partners on the complete package PCI
